Comment Text :  
-->I am totally opposed to the Yucca Mt. waste site. I believe it is too dangerous, & transporting nuclear waste accross our country is just not a solution to the problem. After all what is the price for a new planet?

Please do everything you can to stop the development, production, & use of nuclear material. Human beings are not careful enough to use it, & there are too many people out there who believe in any form of destruction. They would not be above using a bomb on a train or barge or truck or whatever carrying nuclear waste!!

Thank you,

Carol Solomon
